

Wisconsin Bookworms

Dear Parents and Guardians:

Today Wisconsin Bookworms volunteers visited your child's classrom and read this book to them. They gave each child a copy of the book to keep. This reading program is a statewide project with books purchased by the _____ County Association for Home and Community Education (HCE) organization.

More books will be given to your child throughout the school year to create their own in-home library. **Please read the books together again and again!** Your child will learn so much by reading the books with you. An activity sheet is included with each book.

Naming things and talking about them when children are very young helps them with talking, reading, and writing when they get to school. We hope that these books provide hours of enjoyment for your child and family. Thank you.
